Introduction to Apache Cassandra™

CQL API
Compatibility
It is Apache Cassandra !

PULSAR CLIENT
Compatibility
It is Apache Pulsar !

GRAPHQL API
Discoverability, Flexibility
Read only what you need

DOCUMENT API
Flexible Schema
Document-Oriented usages

REST API
Stateless, Interoperability
CRUD for Cassandra

GRPC API
Performance, Interoperability
Execute cql in the fastest way

JAVA MESSAGING SYSTEM
Interoperability
Plug any Existing Java Application

AMQP
Interoperability
Plug any Existing Java Application

KAFKA Interfaces
Interoperability
Migrate Easily

GraphQL

Astra DB

Get the movie genres

get (a pageful of) reference items labeled 'genre'

Get movies for a genre

get (a pageful of) movies for a given genre

Data modeling, the Cassandra way:

"design the table after the query"

(also: tables are partitioned!)

DB usage patterns

GraphQL

Astra DB

get (a pageful of) reference items labeled 'genre'

get (a pageful of) movies for a given genre

reference_list		
label	text	K
value	text	C↑

movies_by_genre		
genre	text	K
year	int	C↓
title	text	C↑
duration	int	
synopsis	text	
thumbnail	text	

"partition key" (rows stored together)

"primary key" (row uniqueness)

"Chebotko diagrams"

Data modeling

label	value
genre	Action
genre	Anime
genre	Award-Winning
genre	Children & Family
...	

reference_list		
label	text	K
value	text	C↑

genre	year	title	duration
Comedies	2020	AJ and the Queen	142
Comedies	2020	All the Freckles in the World	148
Comedies	2020	Leslie Jones: Time Machine	140
Comedies	2020	Live Twice, Love Once	123
Comedies	2019	"Gabriel ""Fluffy"" Iglesias: One Show Fits All"	134
...			
Reality TV	2019	Fastest Car	117
Reality TV	2019	Flinch	111
Reality TV	2019	Haunted	124
Reality TV	2019	Hyperdrive	144
Reality TV	2019	I'm with the Band: Nasty Cherry	119
Reality TV	2019	Jailbirds	140
...			

movies_by_genre		
genre	text	K
year	int	C↓
title	text	C↑
duration	int	
synopsis	text	
thumbnail	text	

stored together)

"primary key" (row uniqueness)

"Chebotko diagrams"

Astra DB

GraphQL to access data

- 2012 Created by Facebook
Used internally for mobile apps
- 2015 Facebook give talk at ReactJs Conf
- 2015 Facebook open sourced graphQL
- 2016 Github announced move to GQL

GraphQL

Definition

GraphQL is an application programming interface (API) query language and server-side runtime that prioritises giving customers precisely the data they request.

Meet GraphQL

Describe your data

```
type Project {  
  name: String  
  tagline: String  
  contributors: [User]  
}
```

Ask for what you want

```
{  
  project(name: "GraphQL") {  
    tagline  
  }  
}
```

Get predictable results

```
{  
  "project": {  
    "tagline": "A query language for APIs"  
  }  
}
```

Why GraphQL ?

- ❖ Discoverability, introspection
- ❖ Declarative Data Fetching
- ❖ Schema stitching
- ❖ Customize responses
- ❖ Flexible versioning
- ❖ Match standards (Json | Http)

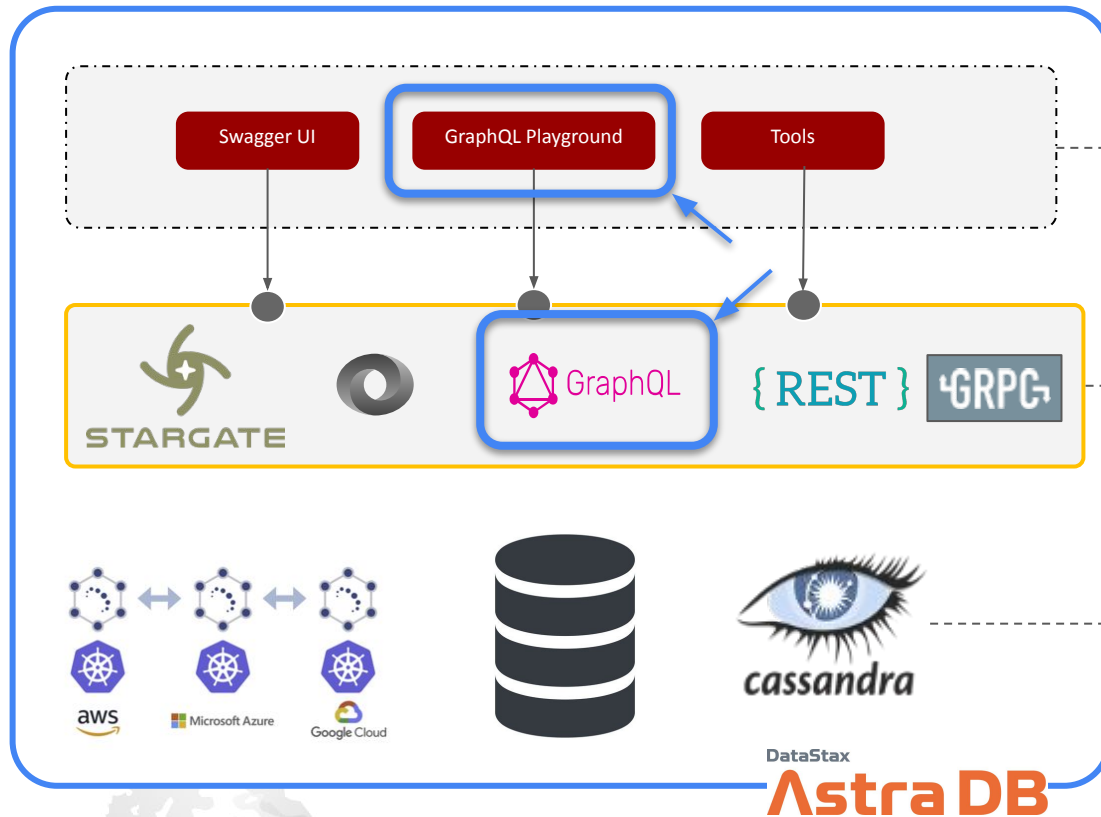

- ❖ Single endpoint (*versioning, monitoring, security*)
- ❖ Complex implementation (*tooling, still young*)
- ❖ Nice for customers, nasty for DB (*N+1 select*)
- ❖ Rate limiting is required
- ❖ Caching is hard (Apollo is a good solution here <https://www.apollographql.com>) <- this is what Netflix uses

- ❖ BFF : Backend for frontend
- ❖ Service aggregation | composition, "federation" (*joins*)
- ❖ When bandwidth matters (*mobile phones*)

RIGGITYREKT Hier à 21:14
I have a 5 node datacenter, 4 nodes are on dse version 5.1.20, one is on dse5.0.15. I am doing some mixed version testing for a class and the one node that is 5.0.15 is coming up as an analytics workload. I dont have /etc/default/dse, instead I am using /etc/init.d/dse-cassandra.
how do i make that node start in cassandra workload, not in analytics?

RIGGITYREKT Hier à 23:39
Okay I found out my issue, when i started DSE 5.0.15 it had endpointsnitch set to DseSimpleSnitch, the rest of my cluster is using PropertyFileSnitch, when i change it to PropertyFileSnitch, it still uses the simple snitch config. looking at the docs i see there is a way to go to GossipingPropertyFileSnitch, but i need the property file one. I can wipe this dbs, do anything with this node to get this done. how do i fix this?
[@here](#)

19 novembre 2021

@RIGGITYREKT Okay I found out my issue, when i started DSE 5.0.15 it had endpointsnitch set to DseSimpleSnitch, the rest... mixed versions isn't supported and you're guaranteed to run into weird issues that will cause further problems down the track

@RIGGITYREKT I have a 5 node datacenter, 4 nodes are on dse version 5.1.20, one is on dse5.0.15. I am doing some mixed v...
Cedrick Lunven Aujourd'hui à 09:01
When you start a node you have parameters -k for analytics, -g for graph and -s for search. To remove analytics check and remove -k
